

## How to Identify Pre 1998 and Post 1998 Gunnison Reels and Their Spools

This is a Pre 1998 Frame and Spool. These Frames and Spools were manufactured between 1995 and 1998. Note the brown Drag Disk and teardrop Clicker as well as no screws on the bottom of the Spool. The Frame and Spool are bright and have six large holes. Prior to 1995 these Reels were Matte Finished and had either a brown teardrop Clicker or a black spiral Clicker.

This is a Post 1998 Frame and Spool. These Frames and Spools were manufactured between 1998 and 2003. Note the black Drag Disk and black Clicker as well as two screws on the bottom of the Spool. The Frame also has many small holes.
