

Identifying Gunnison Spools

Post 1998 Gunnison Spool – this Spool has two Screws, two Plungers and a Change Ring for Left-Hand wind to Right Hand wind conversion.

Gunnison Spools 1995 to 1998 – this Spool has two Plungers and a bright Anodize finish.

Pre 1994 Matte finished Gunnison Spools – two types of Pre 1994 Spools were produced, Wide Grooved and Narrow Grooved. Above are examples of each. Replacement Spools produced after 1995 are one-piece only and are available in either the wide or narrow groove.
